Gradus JSC has just finished developing a new center in Chervena voda, near Rousse, northcentral Bulgaria. The Bulgarian poultry producer invested €1.7m in this project, which covered construction works and new equipment and machinery. The complex, which has a maximum capacity of 123,264 birds, includes six facilities and 12 halls covering 864 sqm each. The company is also in the process of developing another center, which is scheduled to be delivered in August.
