The medical services provider Regina Maria has invested €300,000 in its second clinic in Cluj-Napoca. This clinic is located central Cluj and has an area of 850 sqm. "This network development comes as a natural response to the growing demand for our services from local and national companies present in Cluj, as well as from individual patients. After opening in Cluj, we plan other openings in cities that can support investments of €800,000 to €1m the health sector," said Fady Chreih, CEO Regina Maria.

Last year, Regina Maria recorded a turnover of approximately €55m, up 19 percent from 2013. The network is the largest private network in Romania with 19 health clinics, four hospitals, three Medical clinics and more than 140 partners.
