Wilson's has enjoyed a major success at the 10th Annual GLE Awards, a prestigious event that's been organized for the past decade by the group Global Law Experts. No stranger to success at these awards, Wilson's was chosen as the winner in the category Foreign Investment Projects Law Firm of the Year in Slovakia - 2019. The accolade is made all the more valuable by the fact that GLE polls well over 120,000 high-ranking people in business, including CEO's, in-house legal counsel, high net-worth individuals and bar associations. "It's a real honor to be awarded this prize, but all credit must go to entire Slovak team who have all worked unbelievably hard to bring us success in a tough market," said partner and co-founder, Bryan Wilson. "We go out of our way to provide the highest possible level of client service, so receiving this kind of recognition makes me even more sure that our business strategy is correct."
