Half of Foksal 13/15 apartments in Warsaw sold

Half of the luxury apartments in the historic tenement houses at Foksal 13/15 in the center of Warsaw have been sold. Sales started in April 2017. In total, the project will feature 55 apartments, ranging from 47 sqm to 200 sqm. “We are very happy that Foksal 13/15 apartments are enjoying such big interest. This confirms our assumptions that in Poland there was a shortage of investments which would combine top-class historic architecture, rich history, luxury amenities and location in the very heart of the city,” says Jeroen van der Toolen, managing director for the CEE region at Ghelamco, the project’s developer. “Our project has set new standards on the Polish market of luxury property and has been highly appreciated by customers from the premium segment.” Foksal 13/15 will include a number of amenities, like a spa zone with a sauna and jacuzzi, a fitness room and terraces with a cocktail zone on the roof. There will also be on-site guest rooms and an underground garage with modern lifts and parking platforms for 64 cars.
