IWG concluded contracts for over 18,000 sqm of serviced offices in nine locations across Poland in 2018. The global operator of flexible offices operates the Regus and Spaces brand. Currently, IWG has over 30 locations throughout the country and claims to control nearly 20% of the market share. JLL advised IWG on its selection of locations and in negotiating most of its Polish lease contracts. “We have ambitious plans for our brands in 2019,” said Rafał Gabteni, IWG Area Director. “We continue to expand Regus, but we are also focusing on opening new Spaces offices. We want them to be in the best locations and in modern projects, not only in Warsaw.” IWG recently expanded its office in Centrum Marszałkowska by another 2,000 sqm, bringing it to 6,000 sqm in total.
